## NEW BUSINESS RESTRICTIONS

American Modern® is committed to the California market and carefully manages and evaluates its concentration of risk. These evaluations use objective, industry-standard methodologies, such as total insured value and/or other exposure measures, to assess exposure in defined geographic areas. Recent evaluations have led American Modern to implement new business restrictions in certain areas of California.

## DWELLING BASIC

- ▶ The American Modern Property and Casualty Insurance Company (American Modern) **Dwelling Basic** program is designed to meet the needs of the dwelling owner that has **Rental, Seasonal** or **Vacant** property or **Owner-occupied** when the owner does not desire and/or qualify for coverage on a homeowners form. Risks should be in fair or better condition.
  - **“Fair condition”** means the home is structurally sound with no visible sagging porches or rooflines. A home in fair condition may also need cosmetic repairs such as paint, missing shutters, or other items that may affect the visible condition but does not affect the integrity of the structure.
  - **“Unacceptable condition”** includes, but is not limited to, broken or boarded up windows, excessively worn or damaged roof, unrepaired vandalism or damage, sagging porches and roofs, or excessive debris in the yard.
- ▶ Vacant dwellings may be temporarily vacant due to one of the following conditions: renovation or remodeling, between tenancy or real estate closings, dwellings held for sale and on the market, or investment properties. Eligible Vacant Risks include: Dwellings, Condominiums and Manufactured Homes.
- ▶ Tiny homes are acceptable if they contain at least 100 sqft of living space and are permanently located. Tiny homes that are mobile, on a trailer or have wheels are not eligible.

### ▶ **Not a Residence (Stand Alone Other Structures)**

The Dwelling Basic Structure Endorsement is used for structures that are not dwellings and don't look like dwellings, but may have small or minimal living quarters, except boat houses. The Structure Endorsement (DB-CW-C-0003) allows the adjuster to identify that we are covering a non-residence under Coverage A. The structure may have a roof and may or may not be fully enclosed. Examples include pole barns, camping structures, casitas and covered boat slips. Risks should be in fair or better condition. Refer to the Risk Characteristics section for more detail.

## DWELLING SPECIAL

- ▶ The American Modern Property and Casualty Insurance Company (American Modern) **Dwelling Special** program is designed to accept individuals who have **Rental, Seasonal**, or **Vacant** properties that would normally qualify for coverage through a standard carrier. **Owner-occupied** homes are not eligible in this program.
  - The program may also be used to accept individuals who may have difficulty obtaining homeowner insurance with standard carriers due to unfavorable liability exposures, such as a swimming pool, trampoline, incidental business exposure, or animals.
  - Risks must be in **above average** or better condition and reflect responsible ownership in the maintenance and upkeep of the property. Roof must be in good condition.
  - Risks with peeling paint, sagging gutters, overgrown premises, or cluttered with debris about the premises are not acceptable.

However, even if a binding restriction is not listed in AMsuite or on [amig.com](http://amig.com), but meets any of the above criteria, the temporary suspension of writings should be followed. Producers are encouraged to monitor information resources such as the news when there are impending severe weather or catastrophic events in the area.
