How to Remove Duplicated Accidents and Violations

Manually entered Accidents/Violations may become duplicates from system generated reports. These duplicates will not allow you to move forward in the policy process and need to be removed.

- 1 To remove these manually entered duplicates, **click** the “Accidents/Violations” tab.
- 2 Then click the checkbox next to the Manual submission, and click **Remove** to delete the duplicates.
- 3 Revisit the Drivers page and update the number of accidents and violations on the **Driver Experience** tab, so that the number matches the entries on the **Risk Analysis** page.

How to View Motor Vehicle Records

The Motor Vehicle Records are only available after you proceed to issuance. To view the Motor Vehicle Record:

- 1 Select **Risk Analysis** from the left-hand navigation pain.
- 2 Click the **Motor Vehicle Records** tab on the Risk Analysis page.
- 3 Select the **MVR Report Details** button.

The screenshot shows the AMsuite interface for Risk Analysis. On the left is a navigation menu with 'Risk Analysis' selected. The main area has a 'Risk Analysis' header with a 'CLICK HERE TO LEARN MORE' button. Below the header are navigation buttons: '< Back', 'Next >', 'Quote', 'Quote(Demo)', 'Save Draft', 'Versions', and 'Withdraw Transaction'. There are also 'Add UW Issue' and 'Request Approval' buttons. A tabbed interface shows 'Motor Vehicle Records' as the active tab, highlighted with a red box. Below the tabs is a table with columns: Name, Gender, Age, License State, MVR Status, Report Date, # Accidents, # Violations, and Points. Two rows of data are visible. A red box highlights the 'MVR Report Details' button, with a callout box pointing to it that says 'MVR will become available once the policy quote is issued.'
